FOR THE FIRST TIME IN FOREVER

UKE TAB BY *IDINA MENZEL*

```
C                F
The window is open, so's that door
   Am                        G
I didn't know they did that anymore
     C                   F            Am      G
Who knew we owned eight thousand salad plates?
     C                       F
For years I've roamed these empty halls
   Am                G
Why have a ballroom with no balls?
C               F              Am     G
Finally they're opening up the gates

Am                            Em
There'll be actual real live people
G                F
It'll be totally strange
     A#                           G
But wow, am I so ready for this change

              C             F
Cause for the first time in forever
             G                  C
There'll be music, there'll be light
        Am             F
For the first time in forever
          A#                  G
I'll be dancing through the night

       Am                     Em
Don't know if I'm elated or gassy
        G                   F
But I'm somewhere in that zone
               C            F
Cause for the first time in forever
G          C
   I won't be alone

I can't wait to meet everyone! (gasp)
What if I meet... the one?
```

```
  C                F
Tonight imagine me gown and all
Am                  G
Fetchingly draped against the wall
     C              F      Am  G
The picture of sophisticated grace
        C               F
Ooh! I suddenly see him standing there
   Am                  G
A beautiful stranger, tall and fair
   C                F             Am    G
I wanna stuff some chocolate in my face

              Am                Em
But then we laugh and talk all evening,
          G         F
Which is totally bizarre
A#                                  G
Nothing like the life I've lead so far

         C            F
For the first time in forever
            G                   C
There'll be magic, there'll be fun
         Am            F
For the first time in forever
            A#         G
I could be noticed by someone

      Am                  Em
And I know it is totally crazy
     G             F
To dream I'd find romance
            C              F
But for the first time in forever
G                       C
    At least I've got a chance
```
