YOU BELONG WITH ME

UKE TAB BY *TAYLOR SWIFT*

```
G
You're on the phone with your girlfriend
        D
She's upset
                                              Am
She's going off about something that you said
                                          C
'Cause she doesn't get your humor like I do
G
I'm in my room
                          D
It's a typical Tuesday night
                                                  Am
I'm listening to the kind of music she doesn't like
                                          C
And she'll never know your story like I do'
Am
But she wears short skirts
C
I wear T-shirts
G
She's cheer captain
D
And I'm on the bleachers
Am                              C
Dreaming about the day when you wake up
                       D
And find that what you're looking for has been here the whole time
         G
If you can see I'm the one who understands you
D                                     Am
Been here all along so why can't you see
                C
You belong with me
                G
You belong with me
G                                                 D
Walking the streets with you and your worn-out jeans
                                                Am
I can't help thinking this is how it ought to be
                                          C
Laughing on a park bench, thinking to myself

Hey isn't this easy
     G                                                        D
And you've got a smile that could light up this whole town
                                                          Am
I haven't seen it in a while since she brought you down
```

You say your fine

I know you better then that
C

G

When you know you're about to cry

And you tell me about your dreams
G
I think I know where you belong
